

## Case Study:

# When it comes to workmanship, you can't go past Vergola

When David and Kay were looking for a stylish and functional solution to provide protection on the patio of their Avalon apartment, the choice was simple – Vergola.

Their custom made 5.8m x 2.2m Vergola with steel frame was installed within five days.

"The workmanship was outstanding, says Kay. The installation team was a delight to work with. They were very co-operative and left a clean workplace each day. They are a credit to Vergola."

Kay says she would have no hesitation in recommending Vergola to her friends. "In fact I already have. They only have to see it to be impressed as we are."

"Vergola has met all of our expectations, during all kinds of weather. We're very happy with the choice."

"When it is closed, it is not as cold as normal. It is definitely warmer in winter under the Vergola."

"The workmanship was excellent. Nothing was a trouble."
